EXPERIENCE

→ **Railways Portal Using GUI(RailGaadi)**- The project was to build an online portal for booking of railway tickets using Java framework i.e., GUI. This project helps in educating the people for easier and faster access to booking tickets online.

→ **Movie Description Website(MovieFunda)**- The project was to build an online portal for downloading, adding, and editing the movies by the manager, customer, and admin. People can download various movies from this portal using the download option and can view what all movies are trending. This project is built using JSP, MYSQL, HTML, and CSS.

→ **Worked on a paper with Faculty**- I have worked on a paper for “Design of smart Holding stick for Handicapped” completing the literature review for it and the prototype. We are trying to publish it under Current Applied Science and Technology.

→ **Working on Sentiment Analysis for Youtube Comments**- This project can help the youtube content creators to identify whether the video has reached up to their expectations. The fake Gmail IDs will be deleted and then the analysis will be done.

→ **Tutored 20 primary and high school students** in English, Maths, History, resulting in 12 of them receiving good possible grades in their exams.
